SKILLS

Web Technologies: React.js, Node.js, Next.js, HTML5, Tailwind CSS, GitHub, TypeScript, Postman

AI & GenAI: RAG, LLMs Integration, Ollama, Embeddings, Semantic Search, Vector Databases, pgvector

Programming Languages: Java, Python, JavaScript, C

Data & Analytics: Excel, SQL, Data Analysis, Data Visualization, Dashboard Development

OS and Database: Linux (process monitoring, log analysis, basic command), MySQL, MongoDB, PostgreSQL, Windows

Automation Testing: Selenium WebDriver, TestNG, Page Object Model (POM), Test Automation, Web Scraping, SDLC, Agile Methodology, REST API, Maven, API testing

PROJECTS

[PhotoShare AI : AI-Powered Event Photo Sharing Platform](#)

- Built an AI-powered event photo sharing platform using **Next.js**, **TypeScript**, **PostgreSQL**, **Python (FastAPI)**, **InsightFace**, and **Cloudinary** with secure authentication, event management, and QR-based gallery sharing.
- Developed an AI **face recognition pipeline** to automatically identify attendees and generate personalized photo galleries.
- Designed scalable REST APIs for photo uploads, gallery management, and **privacy-focused access** control.

[Web Application Automation Framework](#)

- Built a Selenium automation framework using the **Page Object Model (POM)** for testing the PhotoShare AI web application.
- Automated end-to-end user workflows including login, event creation, photo uploads, and gallery navigation.
- Implemented reusable test cases, explicit waits, and HTML test reports to improve test execution and maintainability.

[KnowledgeHub AI : Multi-Tenant RAG Platform](#)

- Built a **multi-tenant RAG platform** using **Next.js**, **PostgreSQL (pgvector)**, and **Ollama**, enabling organizations to integrate AI-powered knowledge search through a simple API and embeddable JavaScript widget.
- Implemented **document ingestion**, **chunking**, **vector embeddings**, **semantic search**, and organization-specific retrieval for accurate, context-aware responses.

[CourseCrafter : AI Course Generator](#)

- Built a personalized AI learning platform that automatically creates structured courses, and study plans from online content.
- Implemented an AI-driven content curation system that analyzes, ranks, and recommends high quality learning resources based on user interests, difficulty level, and learning pace

Medicine Recommendation System

- Built an AI-based recommendation system predicting diseases from symptoms using ML models (SVC, RandomForest, GradientBoosting) with **92% accuracy**.
- Integrated medication, precaution, workout, and diet recommendations for enhanced treatment guidance.

EXPERIENCE

Centre for Development of Advanced Computing (C-DAC), *Project Intern*

Mar 2026

- Built an intelligent **RAG-based AI Chatbot** leveraging LLMs, embeddings, and vector search to provide accurate, context-aware responses from custom knowledge bases.
- Developed end-to-end document processing, retrieval, and conversational workflows, improving information accessibility and user engagement.

Physics Wallah Pvt. Ltd, *Product Development Intern*

Nov 2024 – Feb 2025

- Led a **cross-functional** team to develop healthcare solutions and **2+ POCs**, improving platform usability and scalability.
- Executed performance tuning strategies, cutting **latency by 15%** and streamlining application workflows.

Google Developer Groups PCE, *Campus Lead*

Aug 2023 – Present

- Mentored **50+ team members** and organized **15+ tech events**, including hackathons, speaker sessions, and Study Jams.
- Engaged **2,000+ students** through workshops and peer-learning initiatives.

EDUCATION

Higher Secondary Certification, BN.Bandodkar Collage of Science

2020 – 2022 | Percentage: 75%

Secondary School Certification, Tilak International School, Ghansoli

2019 – 2020 | Percentage: 92.60%

B.Tech Computer Engineering (4th year), Pillai College of Engineering

2022 – 2026 | CGPA: 8.9/10
